CHICKERING & SONS,
PIANOFORTES.
THE subscribers take pleasure in informing the public that they have been appointed **Sole Agents for these Celebrated Instruments for the State of Rhode Island,** and they would invite special notice to their intention of offering for sale at their NEW WAREROOMS a larger and more complete stock of Grands, Uprights and Squares, made by this Celebrated Firm, than has previously been exhibited in this city.
The subscribers have been cognizant of the extraordinary merits and sterling qualities of the CHICKERING PIANOS for many years. This has resulted from a large experience in the sale of Pianos, many of which were from the best makers in the country and a careful observation of the various points of excellence attained by each particular maker, together with the opportunities afforded from their close connection with the Musical World, of hearing the most unanimous opinions of the greatest artists in favor of the Chickering Piano, and finally, upon witnessing the last and crowning triumph at the recent Paris Exposition over all the most celebrated makers in the world. The peculiar points of superiority to be found in the **Chickering Pianos** have been so frequently and minutely detailed by the Press that we do not consider it necessary in the Card to comment farther upon them. We shall keep in connection with the above, a choice assortment of PIANOS from good and reliable makers at a lower price.

Cheap Shoes.
MY SALE of SHOPWORN SHOES will commence on

T. MUMFORD SEABURY,

ZEPHYR OVERSHOE.
PATENT APPLIED FOR.
THE utility, cleanliness, and comfort of the overshoe for Winter wear, has demonstrated the necessity of an article suitable for the damp or wet days of the other seasons of the year, when the ordinary overshoe produces discomfort from its weight, warmth, and non-ventilation.
The ZEPHYR OVERSHOE now offered for public patronage, combines the following characteristics:
They are thoroughly water-proof, both sole and upper, which can be tested by filling them with water to the very top, without leaking a particle.
The upper is made of a peculiar cloth, which, although resisting water, yet can be breathed through freely, thus permitting the escape of insensible perspiration, and rendering them cool to the foot on the hottest day.
The binding made of a patented material, being partially elastic, keeps the shoe snug to the foot, avoiding that disagreeable slipping at the heel, and gaping at the quarter, common to the ordinary sandal now in use.
A pair weighs but four ounces, occupies when folded a very small space, and can be carried, when not in use, in the pocket or reticule. For sale at

Country Children.

BY MRS. M. A. KIDDER.

Little fresh violets,
Born in the wildwood;
Sweetly illustrating
Innocent childhood!
Shy as the antelope—
Brown as a berry—
Free as the mountain air—
Romping and merry!

Blue eyes and hazel eyes
Peep from the hedges,
Shaded by sunbonnets
Frayed at the edges!
Up in the apple-trees,
Heedless of danger,
Manhood in embryo
Stares at the stranger!

Out in the hilly patch,
Seeking for berries—
Under the orchard tree,
Feasting on cherries—
Tramping the clover blooms
Down 'mong the grasses,
No voice to hinder them—
Dear lads and lasses!

No grim propriety—
No interdiction;
Free as the birdlings
From city restriction!
Coining the purest blood—
Strengthening each muscle—
Donning health armor
'Gainst life's coming bustle!

Dear little innocents,
Born in the wildwood;
Oh, that all little ones
Had such a childhood!
God's blue spread over them—
God's green beneath them;
No sweeter heritage
Could we bequeath them!

THE ISLAND CARDINALS.

BY EMMA GARRISON JONES.

Concluded.

Months passed. It was midsummer at Gurney Park. All the old garden-walks were redolent with spicy odors; and the quaint trellises, and great, arched door-ways were wreathed and overhung with roses.—The household was on tiptoe, making ready for the approaching wedding; Marcia even busier, and apparently more interested than all the rest. The old fashioned mansion had been finely brightened up; and in one chamber, a dainty kind of temple all hung with silver and satin, in a great carved chest that gave out pungent odors of camphor wood, were the bridal robes just imported from Paris; clouds of snowy, shimmering lace, and wreaths of orange blossoms. Twenty times a day, at least, Alice crept up to peep at them, with a flush on her cheeks brighter than any of the summer roses wore.

One afternoon, in the midst of these happy, busy days, the three, John Gurney, Alice and Marcia, were out rowing, and gathering water-lilies. Coming home at sunset, the boat piled up with fragrant, half-blown buds, the warm, tinted waves lapsing round them with liquid murmers, Alice looking out towards a small islet, espied a great cluster of cardinal flowers, glowing like a flame in the waning light. Her eyes brightened, and she clasped her hands in childish eagerness.

"O," she cried, "how beautiful, if I only had them!"

"Had what?" questioned John, looking up alertly from his oars.

"Those cardinal flowers—I love them so much."

He looked out towards them with a critical eye.

"You should have them," he said, "but I'm almost afraid to risk the boat out there, 'tis rather a dangerous place, but if you say so—"

"No, no, not for the world!" cried Alice clasping his arm, her face white with terror.

But as they touched the shore she looked back.

"What, you want them still?" said John, as he lifted her from the boat.

"Certainly she does," put in Marcia, "and if you were a bit gallant, you'd get them. I wonder if I should ask you to get them for me whether you would?"

"Undoubtedly!" replied John curtly, assisting her to the shore.

A few moments later, sitting at her window, and looking out into the gathering twilight, Alice saw a dark figure on the beach, and before she could draw her breath, a boat shot out in the direction of the islet. Her very heart froze with terror, and she sat quite still, straining her eyes to watch its fate. A short space of terrible suspense, and the little boat came back, cleaving the glowing waters till they flashed like silver.—She saw John leap ashore, and approach the house with a rapid step, bearing the flaming cardinal flowers in his hand. Her cheeks glowed, and swift-coming tears blinded her. Her heart seemed bursting with excess of joy, to think that John had risked so much to please her wayward fancy. She arose from the window, and stood breathless, waiting for him to come up with his offering. She heard his heavy step in the hall, and a moment later a servant ascended the stairs. Alice drew back, too sensitive to appear to be waiting. The girl passed her door, with the flaming blossoms in her hand, and turned into Marcia's chamber. Alice waited with a strange pang at her heart. She heard a few low, earnest words, and then Marcia's delighted exclamations:

"O dear, how delightful! And how kind of John! Give him a thousand thanks, and tell him I shall not forget this."

The servant departed, and Alice dropped into a seat, with her hands clasped above her heart. A moment later Marcia entered with the splendid blossoms in her hand.

"See here, Alice," she cried; "was there ever such a fellow as John! he got them, after all."

"Not for me!" replied the girl, in a heart broken voice.

Marcia put down the flowers, and went and stood beside her.

"Don't be foolish, Alice," she said; "men will do such things, you know. You are as good as John's wife now, and you see he don't mind about being so particular as he once was. It was real gallant in him to get these flowers for me, wasn't it now?"

Alice made no answer, but hiding her face in her hands began to sob like a child.

"O Alice, for mercy's sake don't!" Marcia continued, "I wouldn't have John know of this for the world; he'd have no patience with a jealous woman. You must win him over by gentle means, dear. Come, come now," she went on, a strange gleam lighting her black eyes, "dry your tears,—

You need not be troubled. John has a foolish fancy for me, I'll admit, and it seems a little hard for him to get over it; but he is as true as steel; he'll not break his troth. Besides, you bring him the Gurney fortune, you know; *that'll* hold him fast enough. But you shall have no more trouble on my account, Alice," she added, mournfully; "I'm going away from Gurney Park forever; then you'll be happy."

Alice rose to her feet with a white, decided face.

"No, Marcia," she said, faintly, "there's no need of that, I'm going away myself."

"Alice, are you going demented?" Marcia cried, with well-affected surprise; "don't talk so silly, child. Sit down, and promise me you'll forget this foolish affair, and never mention it again, or I'll call John at once and tell him the whole story."

"I shall say nothing about it, Marcia; you may depend on that," she replied, quietly.

"That's a good girl; and now I'll throw the hateful things away," Marcia continued, tossing the cardinal flowers from the open window, "and John shan't be foolish anymore. Good-night, dear!"

"Good-night, Marcia," said Alice, looking after her, with an unfaltering resolve in her blue eyes.

"Shall I make the coffee for you, John?" asked Marcia, on the following morning, making her appearance in the breakfast room, in a robe of saffron-hued cashmere, embroidered with purple, and sprays of fresh heliotrope trailing from her hair.

"Where's Alice?" said John, looking up from his paper.

"Indisposed perhaps—she's not down."

"Send up and see, will you?"

Marcia rang for a servant, and despatched her to Alice's room. She returned almost instantly. Miss Alice was not in her room, and had not slept in her bed. John cleared the hall and stairway at a few bounds, entering the prim little chamber, so characteristic of its owner, with a great thrill at his heart. The drawers and toilet cases were open, and rifled of their contents, and on the table lay a note directed to himself. He tore it open with an unsteady hand, and read:

"Dear John:—Forgive and forget me. I am going away where you will never see me again. I hope you and Marcia may be happy. Alice."

For a moment or two he leaned against the wall stunned and speechless; then he rushed down the stairs, and into the room where Marcia stood.

"Woman, fiend," he gasped, hoarsely, seizing her arm, "this is your work; you have driven her away."

Marie laughed lightly, shaking off his grasp.

"Don't be absurd, John," she said; she'll come back, no doubt, and then you'll be sorry for all this."

"No, she wont come back," he thundered "and you've sent her away. I see it in your eyes. By the God that made me, if you were not a woman I'd strike you down at my feet. Away, out of my sight; this roof shall not shelter you another night."

"Is it your roof, John Gurney?"

"Yes—mine by Felix Gurney's will—for Alice Grayson shall be my wife, or no other living woman."

Marcia turned away, quailing before the wrath she had evoked; and before nightfall Gurney Park was left tenantless; and the poor cardinal blossoms, the cause of all this sudden trouble, lay trampled and faded beneath the window.

Years went by. John Gurney had searched everywhere; he had offered rewards, and published advertisements, but in vain. Alice never came back, nor could the least tra e of her be discovered. At last, heart sick and worn out with suspense, he left his native land, and went forth a wanderer on the face of the earth. Over mountains, and through burning deserts, amid the ruined towers of Baalbec, and in the lonely haunts of the accursed city in the Rock, everywhere where the foot of man could penetrate, he went; coming back after a lapse of years, with silver hairs upon his temples, and furrows of care upon his brow. Marcia convinced at last that the game, for which she had staked so much, could never be won, had married a foreign nobleman, and was reigning a brilliant star in some distant city; and Gurney Park was still desolate.

On a bright spring afternoon, John Gurney walked up the broad avenue leading to the great arched gateway; a sorrowful, hopeless man, with a nameless void in his heart that nothing could ever fill. The birds in the bowers chattered to welcome him, the great crimson roses shook out their rarest perfume. But he walked on sadly, with bent head and contracted brows. Just five years before he had rowed across to the islet to gather the cardinal flowers for Alice. The remembrance brought a film of tears to his stern eyes. Passing the old graveyard at that moment, he caught sight of a slender figure flitting ghostlike amid the solemn yews. A few steps more, and they stood face to face.

"Alice!"

She did not speak, but stood before him as white and still as sculptured marble.

"Alice, in God's name, speak—is it you, or your ghost?"

"It is Alice," looking up with her old smile.

He put out his arms to clasp her, but drew back at a sudden thought.

"Why did you leave me, Alice?" he said, sternly, "and make all my life so desolate, knowing that I loved you so well?"

"I thought you loved Marcia!"

"You knew better—I told you so!"

"But you gave her the cardinal flowers!"

A sudden light dawned in his eyes.

"I did not—I sent them up to you."

"O John!"

"On my soul, Alice. I risked my life to get them for you!"

"And you have loved me all these long, long years John?" she continued, with overflowing eyes.

"All these long years, Alice. But I'm an old man now—my hair is turning gray; this terrible sorrow has told upon me. But my heart is as young as ever, and I love you still. What do you say, Alice? Will you flit out of my sight again, or am I to be happy at last?"

She fell into his outstretched arms with a cry of passionate joy.

"You shall never be unhappy again, John," she sobbed, "if I can help it."

And she kept her word.

The editor of the Erie *Gazette*, no doubt tired of the old system of apprenticeship, thus advertises for a boy: "Wanted at this office, a boy to take sheets from the press every Wednesday and Saturday afternoon. No limits as to salary, and the said boy is to consider that the office exists for his special convenience. If he don't feel well, or wants to go fishing, or play marbles, or see match games of base ball, or go shopping with his girl, or visit his cousin, the paper will wait his sovereign pleasure. Anybody who presumes to criticise his efforts is to be immediately arrested for contempt. All the boys he knows are to have free run of the office. The editors's time is to be exclusively at the aforesaid boy's disposal. Salary to be drawn several years before. A boy possessing these qualifications, please report where he can be found, and at what time a deputation of printers may call upon him, and respectfully present references of good character on the part of the office and its employes. Please write for postage stamp and monogram gilt-edged paper."

NEWPORT DAILY NEWS.

MONDAY, March 8, 1869.

The New Cabinet.

With many persons the first impressions as to Gen. Grant's Cabinet were unfavorable. It seemed that he had passed by so many names, well and favorably known, who had been spoken of in this connection, that it could not be possible that these comparatively new men were the best possible selection. But on sober second thought the general conviction is that Gen. Grant has done right. The politicians are agrieved, but Gen. Grant never promised to please or serve them. As the Providence Journal well remarks it is peculiarly a Grant Cabinet and is composed mainly of gentlemen whose partisan attachments are not so strong as to be likely ever to swerve them from the line of duty. Hon. E. B. Washburne, of Illinois, who succeeds Mr. Seward in the State Department, is a native of Maine, a man of much ability, and the senior member of the House of Representatives, having been constantly a member since 1852. Mr. Alex. T. Stewart, of New York, the Secretary of the Treasury, has by his own exertions achieved the position of the leading merchant in the world. It is a significant fact that the news of the President's choice for the Treasury department depressed the price of gold in Wall street, and gave buoyant and improved tendency to Government bonds. It is probable that Mr. Stewart is the most extensive importer in the country, but he is also an honest man, and will by no means attempt to serve his own interests at the expense of his official integrity. Mr. Adolphe E. Borie, the Secretary of the Navy, is a Philadelphia merchant, of French descent, who has acquired an ample fortune in the China and East India trade, and has, we believe, retired from active business. He is a sterling republican, and one of the leading members of the Philadelphia Union League. Hon. Jacob Dolson Cox, the new head of the Interior Department, was Governor of Ohio in 1865, and as such rendered great service to the loyal cause. He declined an invitation to enter Mr. Lincoln's cabinet upon the retirement of one of its members. No better selection could be made from New England than that of Judge E. R. Hoar who is a man of integrity and ability. Hon. John A. J. Creswell, the Postmaster General, is a lawyer of Baltimore. He was a Representative in the Thirty-eighth Congress, and in 1865 was chosen United States Senator for the unexpired term of Senator Hicks, who died in office. He is regarded as an able man. Gen. Schofield seems to be retained at the head of the War Department, an arrangement, it is understood, of a temporary character.

The Attorney General.

In the very earnest and ingenious guessing which has been going on for the past few months, every other name selected for the new cabinet has been at least casually mentioned, though not one had been fairly settled on as probable; but we believe the name of Judge Hoar has never even been suggested in print as the representative of Massachusetts and of New England among the confidential advisers of President Grant. But there will be found very few men in Massachusetts to question the sagacity of the appointment. Ebenezer Rockwood Hoar is a son of Samuel Hoar who went to Charleston in 1844 to test the supremacy of the Constitution of the United States where it conflicted with the interests of slavery, and was expelled at the peril of his life. The son was born in Concord in 1816, and in his twentieth year was graduated at Harvard College and studied for the bar. In 1848 he was a prominent and effective speaker at the Worcester Convention, over which his father presided, and at which the free soil party in this State was organized. After a short experience in the State Senate, he was placed on the bench of the Court of Common Pleas. In 1854 he delivered a very notable charge to the Suffolk grand jury, expressing the indignation of New England sentiment at the return of Anthony Burns. In 1856 he was one of our delegation to the Philadelphia Convention, which gave existence to the republican party, and he entered with enthusiasm into the campaign for the election of Fremont. In April, 1859, Judge Hoar was appointed by Governor Banks to the Supreme Court, as the successor of Judge Thomas. Since then he has been in the comparative retirement of the bench, and might have been considered out of public life. Last summer, when it was understood that Mr. Claflin would not accept the governorship, the name of Judge Hoar was presented for the position, and the movement in his favor, as far as it went, was met with considerable favor by press and public. The new Attorney General is a cousin of the retiring incumbent of the office, Mr. Evarts.—*Advertiser.*

Gen. Grant's Cabinet.—A special to the New York evening Post of Saturday, says, the appointment of the new Cabinet continues to be the leading topic of conversation in political circles.

All the appointments made give general satisfaction here, with it seems, the single exception of that of Mr. A. T. Stewart.

A large number of Republicans, including several Senators, express their unqualified disapproval of the selection of Mr. Stewart.

It seems that neither General Grant nor Mr. Stewart was aware that the law of September 2d, 1789, establishing the Treasury Department, contained the following section: "Section 8. No person appointed to any office instituted by this act shall, directly or indirectly be concerned or interested in carrying on the business of trade or commerce. If any person shall offend against any of the provisions of this act he shall be deemed guilty of high misdemeanor, and forfeit to the United States a penalty of three thousand dollars, shall upon conviction be removed from office, and forever thereafter be incapable of holding any office under the United States." This act has never been repealed.

Mr. Stewart was in consultation with prominent lawyers this morning discussing this law and the opinion was almost universal that so long as Mr. Stewart was engaged in the importing business it barred him from taking the oath of office. Some discussion also took place as to whether it would not be best to have a bill introduced in Congress providing for the repeal of this act.

Up to the present hour it is understood that Mr. Stewart has not signified what course he will pursue.

It is also reported that Mr. E. B. Washburne will decline the State Department on account of his feeble health.

Commissioner Delano will not take possession of the Internal Revenue bureau until the middle of next week, Mr. Rollins remaining in charge until that time.

The weather is extremely cold and very windy to-day.

About Home.

Station House.—There was but one occupant at the Station House last night and he was a lodger.

Lecture on Rome.—The Rev. C. T. Brooks' third lecture of the course, was delivered last evening. The next is on the 28th of this month.

Ice.—The ice men are at work to-day filling the houses. The ice is five or six inches thick, and not in very good condition for gathering, but it is probably the last chance.

The First Baptist Church.—The General Assembly has not yet disposed of the petition for the incorporation of this church. The Senate by a close vote has decided to allow the petitioners to organize as they wish, and the matter now goes back to the House for concurrence.

We have received a sample of Sterling Spoon Cotton from Messrs. A. T. Stewart & Co., New York, who are sole agents for this country. It is a superior article, and can be had of the dry goods dealers in this city.

The Benefit Concert.—The Glee Club are perfecting the arrangements for the concert on Thursday evening, and we doubt not, will give a most excellent entertainment. Now is the time to secure reserved seats.

Tickets may be had at T. A. Spencer's, T. W. Wood's, A. J. Ward's, Clarke & Tilley's, Clarke & Titus, J. T. Burdick & Co.'s, Sherman & Crosby's. Reserved seats at H. T. Easton's.

Our Steamboats.—We have published a good many reports, mostly taken from other papers, in regard to the sale and transfer of the New York boats to other parties and the removal of the terminus to Fall River. We will now say, on good authority, that they are not, any of them, correct. The boats are not sold, and there is no probability that they will be sent back to our sister city, or transferred to Bristol.

Literary Notices.

The Lady's Friend for March has been received. It is a good number, and has an inviting table of contents, with fashion plates, &c., for the ladies. Deacon & Peterson, Philadelphia.

Every Saturday contains the continuation of Anthony Trollope's story, "He Knew he was Right" and has several other choice articles in each number. Boston, Fields, Osgood & Co.

Peter's Musical Monthly, continues to publish some most excellent music at a very cheap price. It improves with each number, and is worthy the attention of musical people generally. White, Smith & Perry, Boston.

"Sterility is Laid" or Prof. Villis new system of Agriculture, an address before the N. H. Farmer's Club, by John A. Riddle, Esq. This is a pamphlet worth reading and considering. It lays down some new principles, which may be carried to practical results. Price 25 cts. J. A. Riddle, Manchester, N. H.

The American Odd Fellow.—This is the official organ of the order in America and is a valuable magazine. The brethren will do well to sustain it with a liberal hand. J. Werr, New York.

Bristol.

The whole number of marriages in Bristol, in the year 1868, was forty-three; in twenty-six cases both parties were of American birth, five were of Irish, three of English, three of German, two of Scotch, and four of mixed parentage. The youngest bride was 17 years of age; the youngest groom 19; the oldest bride was 53; the oldest grooms were 56. Twenty-three of the grooms were under 25 years, and fifteen of the brides were under 20 years. Thirty-three of the couples celebrated their first marriage; five their second, and two their third. Four couples were colored.

The whole number of births were one hundred and eighty, being the largest number returned in any one year; of this number 93 were males, and 78 females, 65 were of American parentage, 76 of Irish, 10 of German, 2 of English, 2 of Scotch, and 8 of French Canadians; the remaining 15 had parents of different nativity. The children of foreign parentage exceeded those of American by 35; of foreign and mixed parentage by 50.

The deaths during the same time were sixty-eight, being a fraction short of two and three quarters of births to one death.

Bristol, inspired by the example of Providence is agitating the water question. At a recent meeting a committee was appointed consisting of the members of the Town Council and Messrs. Philip B. Bourn, Isaac F. Williams, J. Miller, W. McK. Chapman, and Henry Goff, who are to consider and make a report at a subsequent meeting, of the best means to be adopted by the town to furnish a supply of water in certain localities to be used in case of fire.

The New Yord *World*, the organ of the kid glove democracy, does not sympathize with those of its party who have been making pretences of getting ready to cling to Gen. Grant's coat tails. It says: "The democratic party, which opposed Gen. Grant's election, and regrets it as a national misfortune, expects to oppose its administration from its first to its last." And the *World* follows up this declaration of war by a fierce attack upon Gen. Grant's inaugural. All right, gentlemen, we only desire to behold the mask thrown off. There are democrats who profess that they do not oppose Gen. Grant. Of course this is said for a blind, and we are glad to see the frankness of the *World* in giving free utterance to these feelings of bitterness with which the democracy, its party, regard President Grant.

News Items.

The gas of New York is said not to be gassy enough.

Gov. English, of Connecticut, has proclaimed a fast for the 26th inst.

In the Louisiana legislature speeches in German are answered in French, and a third speaker discusses the question in English.

Mr. Seward's withdrawal from public life closes a continuous residence of twenty years in Washington—twelve as Senator, and eight as Cabinet officer.

James Fiske, Jr., has bought out Brougham's interest in his new theatre, and will put in a French Opera in April.

Hon. H. H. Starkweather, of Norwich, has been unanimously renominated for Congress by the Republican Convention of the Third Connecticut District.

The Boston *Journal* learns that among the last acts of President Johnson was to pardon James D. Martin, the defaulting cashier of the National Hide and Leather Bank.

The Georgia Senate has tabled a resolution ratifying the proposed fifteenth amendment of the U. S. Constitution by a vote of 20 to 11. Both houses have voted to adjourn *sine die* on the 12th instant.

Isabella has really determined to abdicate in favor of her son—a piece of patriotic self-sacrifice which costs her many tears and makes every one else smile.

In the Senate, Wednesday night, an amendment to the civil appropriation bill, offered by Mr. Sprague, appropriating $5,000 for Narragansett Harbor, was agreed to.

The Massachusetts Senate has rejected the proposition to open the Boston Public Library on Sundays; and the House has refused to increase the salaries of the Judges of the Courts.

Horace Greeley says in refference to the Cabinet, that Mr. A. T. Stewart was selected as that man whose very name would give another assurance that our debt would be paid to the utmost, and as fast as our creditors could desire. Mr. Stewart has only to apply to the collection and disbursement of the revenues the same principles and methods which have secured him such eminent success as a merchant, to restore the Government to solvency and financial prosperity. He is not a politician, and he will manage the Treasury purely as a business concern, with intent to raise the largest possible revenue at the smallest cost, whether to the people or the Government. He cannot fail.

The Hon. E. B. Washburne has fought so vigorously and successfully in Congress against corruption and prodigality that he could not be spared from a reforming Cabinet. His health is very poor, and he is most reluctant to take any appointment that keeps him in Washington. On these grounds he at first resolved not to accept, but it is hoped that his repugnance will be overcome, even though he should not be able to serve through Gen. Grant's term.

Probably no single member of the Cabinet, had any reason to suppose his name on the slate till it went into the Senate.

Gas.—The New York gas investigation is rich. Mr. Adams, President of the New York Gas Company, admitted that the profits are enormous, and would be if the price were $3 instead of $3.50. No returns are ever made of income or profit. All of the witnesses admitted, that their meter inspectors were in the habit occasionally of shirking their work and guessing at the state of the meter without looking at it, and that bills were made up on these guesses. It has been *guessed* that bills have been made on a similar basis in smaller towns than New York. Will Col. Stedman vouch for Newport?

Andrew Johnson signalized his exit from office by refusing to sign the bill to strengthen the public credit, one of the most valuable adopted by Congress before its adjournment. But we have a man now for President who will sign such a bill as soon as it shall be presented to him—and that we hope will be very soon. Our bonds have gone up to 88½ in London—the highest point ever reached, and with this bill as a law, and Gen. Grant's administration, it will not be long before they go up to par.

It is curious enough that while the Provisional Government of Spain is put in peril by the hostility of the priest party in that country, the Bishops of Cuba are showing themselves favorable to the Spanish authorities of the Island—the Bishop of Havana giving a portion of his income for a certain time to support the volunteers, and the Cathedral clergy and religious brotherhoods following his example.

Fiske and the Steamboats.—The Taunton Gazette says the public will find that instead of Fiske's purchasing the Newport line of steamers, ultimately the Newport company will have control of the Bristol steamers, which, with the other steamers of that line, combining the force together, will make the most magnificent line in America.

Which Nobody can Deny.—Ex-President Johnson says, in his farewell address, that "the institution of slavery found its destruction in a rebellion commenced in its interest." This does not exactly tally with the oft repeated assertion that the war was waged for the abolition of slavery—but it is true, nevertheless. The result was the very opposite of what the originators of the war intended.

Cause for Thanksgiving.—Mr. Johnson says "Let the people consider how different would have been their present condition had I yielded to the dazzling temptation of foreign conquest, of personal aggrandizement and the desire to wield additional power." It must be admitted that it was possible for Andy to have done more mischief than he did; but is it in good taste for him to claim the gratitude of the people for his omitting to commit possible crimes!

THE CABINET—THE CASE OF MR. STEWART.

The excitement caused by the announcement of the new cabinet has scarcely subsided. The message yesterday asking Congress to remove the disabilities of A. T. Stewart, set the whole town to discussing Stewart's fitness for the place. There is little doubt of the repeal of the act that stands in his way, by the Senate at least, for many Senators want office for their friends and others desire harmony at any price. Sumner will oppose the repeal with all his power, and will have the support of a few Senators. In the House the repeal is more doubtful, though the pressure is so great it is generally believed it will be carried. Some of the ablest and wisest members express the opinion that in principle it is wrong to repeal the law, but they may vote against their principle for the sake of harmony. Stories are current here which implicate the moral character of Mr. Stewart, and some of his enemies claim that he should not have been selected to enter the Cabinet. Whether the stories alluded to are true or false, they have created a prejudice against Mr. Stewart, that will be seen when the vote is taken on the disability question. He has been at work all day with Senators, but asserts that he will not be regarded in the light of an applicant, and if the Senate insists upon a long debate upon the question, he will withdraw his name.

—o—

The special to the Boston *Herald* says Ex-Senator Wade took farewell to day of his friends, and leaves to-morrow morning for Ohio.

The feeling to-day among Senators and Members is against the modification or repeal of the law which prevents Mr. Stewart from acting as Secretary of the Treasury. Both of the New York and most of the New England Senators are against the repeal. Mr. Stewart's business is so extensive that, even if he were so disposed, he could not sell out or properly transfer it.

Senator Williams, of Oregon, says that although the law may never have been heard of before, the fact that it applies to the present case shows that it was a wise provision of the first Congress. The possible vacancy to be caused by the retirement of Mr. Stewart has set the New Yorkers to work, and they are endeavoring to have John A. Griswold or Hamilton Fish appointed in such an event.

The Missouri delegation in Congress succeeded in waiting on the President yesterday with a slate of names for the federal offices in their State. They were intensely surprised to find that Grant had not consulted them in the matter, but had made out his own list of personal friends, and decided to appoint them. For three of the most important offices he had named those who had befriended him in St. Louis when he resided there ten years ago, a poor and obscure man. Following up the precedent of the Cabinet selections in looking after personal friends and leaving out the politicians, has created consternation among the latter class and the army of office-seekers who are here.

The dispatch to the Providence *Herald* says the new administration, as constituted absorbs everything else of interest. In fact, to-day has been as full of excitement as yesterday. The threatened resignation of Washburne and Borie, and the ineligibility of Stewart, destroys half of the Cabinet at once, and speculation runs high as to who will be their successors. The special message of the President to the Senate calling peremptorily for the repeal of the act of 1789, which prevents Mr. Stewart from acting as Secretary of the Treasury, created a profound sensation, and had it been permitted there would have been an interesting and probably exciting debate. The leading Republicans in the Senate opposed the consideration of two bills for the repeal and modification of the law in question. What will be their fate, or the fate of either separately considered, is a matter of doubt. Some Senators say the section will be repealed by a bare vote, but it seems to be generally agreed that it will not succeed in the House. Republican members uniformly talk against interfering with the time-honored statue in any way, and add the fact that Mr. Stewart has thousands of dollars worth of claims pending in the Treasury now, that would have to be decided by himself were he Secretary *de facto*. These claims are for abatement of customs duties, alleged to have been assessed in violation of law. Others say that the President ought to have known of the law before he made the appointment, so as to evade an issue now certain to be made in Congress. Mr. Stewart has accepted the office, so there is no retreat from the situation that day created.

Presentation.—On Friday last a committee, consisting of Chief Justice Chase, Senator Frelinghuysen and George H. Stewart, waited upon the President, and in behalf of the American Bible Society presented him with a copy of the Holy Bible. The Chief Justice presented a letter from the President of the Bible Society, expressing a wish that the administration of Gen. Grant might be guided by its teaching. The President responded:

"Gentlemen—I sincerely thank you for this token, and shall carefully preserve it and hand it down to my children in commemoration of this day."

It is stated that Senator Sprague, of this State, has just purchased an immense water power canal in Columbia, S. C., on which he will soon commence the erection of a large cotton mill. A Southern exchange says that, besides this enterprise, there are several large cotton factories being built in South Carolina, several in Georgia, three or four in Alabama, as many in Mississippi, and that even Florida and Texas are moving in the same direction.

A Malarious Month.

March, that gives us a new President, is also the inaugural month of many harrassing disorders. Entangled in its fogs are the seeds of coughs, colds, and of that alternation of frigidity and fire, more widely known than admired, called fever and ague. The only way to avoid these "little unpleasantnesses," is to render the system strong enough to fight off the atmospheric poison that produces them, and the best way to endow it with this repellant power is to tone it with HOSTETTER'S STOMACH BITTERS.

If a wayfarer were credibly informed that a ruffian was waiting at the next corner, he would doubtless turn in his tracks, and take a safer route to his destination. With just about the same amount of trouble, the attacks of diseases prevalent at this season may be evaded. Nay, the trouble will be less, for drug stores lie in every one's route, and every respectable druggist in the Union keeps on hand HOSTETTER'S BITTERS. The article is a staple of trade, and it would be as easy to find a grocery without sugar, as the store of an apothecary without this popular tonic remedy.

In view of the experience of the nation with regard to the article, during the space of twenty years, it seems almost unnecessary to recapitulate its merits to Americans. But as our population is increasing at the rate of a couple of millions a year, in the natural way and by immigration, it may be as well to hint to the rising generation and new arrivals, (the old settlers know all about it,) that HOSTETTER'S STOMACH BITTERS is the most wholesome and potent vegetable tonic ever manufactured; that it is a specific for debility, dyspepsia, biliousness, and intermittent fevers; that it prevents, as well as cures, these complaints and their complications; that it is not "bad to take," and is absolutely harmless.

YOU ALL

HAVE HEARD OF

HOOFLAND'S GERMAN BITTERS,

AND

HOOFLAND'S GERMAN TONIC,

Prepared by Dr. C. M. Jackson, Philadelphia. Their introduction into this country from Germany occurred in

1825.

THEY CURED YOUR

FATHERS AND MOTHERS,

And will cure you and your children. They are entirely different from the many preparations now in the country called Bitters or Tonics. They are no tavern preparation, or anything like one; but good, honest, reliable medicines. They are

The greatest known remedies for

Liver Complaint,
DYSPEPSIA,
Nervous Debility,
JAUNDICE,
Diseases of the Kidneys,
ERUPTIONS OF THE SKIN,
and all Diseases arising from a Disordered Liver, Stomach, or
IMPURITY OF THE BLOOD.

Constipation, Flatulence, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fulness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the Sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and Great Depression of Spirits. *All these indicate disease of the Liver or Digestive Organs, combined with impure blood.*

Hoofland's German Bitters

is entirely vegetable, and contains no liquor. It is a compound of Fluid Extracts. The Roots, Herbs, and Barks from which these extracts are made are gathered in Germany. All the medicinal virtues are extracted from them by a scientific chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

Hoofland's German Tonic

is a combination of all the ingredients of the Bitters, with pure Santa Cruz Rum, Orange, etc. It is used for the same diseases as the Bitters, in cases where some pure alcoholic stimulus is required. You will bear in mind that these remedies are entirely different from any others advertised for the cure of the diseases named, these being scientific preparations of medicinal extracts, while the others are mere decoctions of rum in some form. The TONIC is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its life-giving, exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.

DEBILITY.

There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility. They impart a tone and vigor to the whole system, strengthen the appetite, cause an enjoyment of the food, enable the stomach to digest it, purify the blood, give a good, sound, healthy complexion, eradicate the yellow tinge from the eye, impart a bloom to the cheeks, and change the patient from a short-breathed, emaciated, weak, and nervous invalid, to a full-faced, stout, and vigorous person.

Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of ninety.

These Remedies are the best

Blood Purifiers

ever known, and will cure all diseases resulting from bad blood. Keep your blood pure; keep your Liver in order; keep your digestive organs in a sound, healthy condition, by the use of these remedies, and no disease will ever assail you. The best men in the country recommend them. If years of honest reputation go for anything you must try these preparations.

FROM HON. GEO. W. WOODWARD,

Chief Justice of the Supreme Court of Pennsylvania.

Philadelphia, March 16, 1867.

I find "Hoofland's German Bitters" is not an intoxicating beverage, but is a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debility and want of nervous action, in the system.

Yours truly,

GEO. W. WOODWARD.

FROM HON. JAMES THOMPSON,

Judge of the Supreme Court of Pennsylvania.

Philadelphia, April 28, 1866.

I consider "Hoofland's German Bitters" a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect,

JAMES THOMPSON.

FROM REV. JOSEPH H. KENNARD, D. D.,

Pastor of the Tenth Baptist Church, Philadelphia.

Dr. Jackson—Dear Sir:—I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system and especially for Liver Complaint, it is a safe and valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes.

Yours, very respectfully,

J. H. KENNARD,

Eighth, below Coates street.

Oxygenized Air,

For the Cure of Chronic Diseases.

Drs. LEE & MOULTON,

Continue to give their personal attention to the treatment of all diseases of the Blood and Air Passages.

The Oxygen is breathed directly into the Lung and through them is carried into the blood; thus, as soon as the blood will carry it, it reaches all parts of the system, decomposing the impure matter in the blood and expelling it through the pores.

The following are a few of the many testimonials which Drs. LEE & MOULTON are daily receiving from their numerous patients in the city and country.

TESTIMONIALS.

PROVIDENCE, Jan. 10, 1868.

L. M. LEE, M. D.—Dear Sir,—From a feeling of gratitude to you for my present state of health, I am induced to write you a few lines, which you are at liberty to use publicly.

For a long time previous to consulting you I had suffered exceedingly from Catarrhal and Bronchial difficulties. By following your treatment the above difficulties were removed—my circulation was better and in fact my general health was very much benefited. It has now been more than six months since I was under your treatment, and its effects have been lasting, and I can cheerfully recommend it to all who are similarly afflicted.

Respectfully yours,
MRS. G. T. SWARTS,
Cor. Pine and Dorrance Sts.

Letter from Rev. Geo. P. Walker,

LITTLE COMPTON, R. I., Oct. 19, 1867.

Drs. Lee & Moulton, 199 Westminster St.:

Dear Sirs:—Having some years since succeeded in raising a man from apparent death to life by the use of oxygen gas, introduced into the lungs by artificial respiration—when I read the advertisement of the new remedy for disease of the lungs, &c., which you apply, I became at once interested in it, and at my first opportunity made trial of it for the relief of a chronic trouble in my throat and bronchia. Its effects upon me was wonderful and almost instantaneous. I had inhaled it but a few times before there was a very perceptible improvement in the strength of my vocal organs; and it so quickly removed all traces of a severe cold which had been resisting the power of common cough medicine for several weeks. It has been now some three months since I have inhaled the Oxygenized Air more than once or twice, yet its effects continue, enabling me to speak with more ease to myself and more acceptance to my hearers. I consider the remedy truly philosophical, and one which recommends itself to the afflicted, and if my advice could be heard and heeded—no one who has the symptoms of any serious trouble in the throat or lungs, or even a bad cold, could neglect to try it. Trusting you may have the opportunity—as I believe that, in the use of the "Oxygenized Air," you have the ability—to ward from many the shafts of a premature death.

I am yours truly,
GEO. P. WALKER,
Pastor of the United Congregational Church and Society.

Catarrh and Bronchitis; and Consumption with Hemorrhage.

L. M. LEE, M. D.—Dear Sir,—Since the date of my former note, I have continued the occasional use of your remedies for Catarrh and Bronchitis, until I now am happy to consider myself not merely relieved, but about cured, especially of the troublesome throat affection, from which I had suffered so much, for more than fifteen years. And I now feel prepared to recommend your mode of treatment to all who are suffering from similar complaints.

My wife has also derived much benefit from the use of your inhalents, finding them especially useful in the prevention of hemorrhage from the lungs.

Very respectfully, yours,
J. LIVESEY.

TO PHYSICIANS.

NEW YORK, August 15th, 1867.

ALLOW ME TO CALL YOUR ATTENTION to my PREPARATION OF COMPOUND EXTRACT BUCHU. The component parts are BUCHU, LONG LEAF, CUBEBS, JUNIPER BERRIES.

MODE OF PREPARATION.—Buchu, in vacuo. Juniper Berries, by distillation, to form a fine gin. Cubebs extracted by displacement by liquor obtained from Juniper Berries, containing very little sugar, a small proportion of spirit, and more palatable than any now in use. The active properties are by this mode extracted.

Buchu, as prepared by Druggists generally, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this (its active principle), leaving a dark and glutinous decoction. Mine is the color of ingredients. The Buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection, it will be found not to be a Tincture, as made in Pharmacopœa, nor is it a syrup—and therefore can be used in cases where fever or inflammation exists. In this you have the knowledge of the ingredients and the mode of preparation.

Hoping that you will favor it with a trial, and that upon inspection it will meet with your approbation.

With a feeling of confidence,
I am, very respectfully,
H. T. HELMBOLD,
Chemist and Druggist of 16 years' experience in Philadelphia, and now located at his Drug and Chemical Warehouse, 594 Broadway, New York.

[From the largest Manufacturing Chemists in the World.]

"I am acquainted with Mr. H. T. Helmbold; he occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise. WILLIAM WEIGHTMAN,
Firm of Powers & Weightman, Manufacturing Chemists, Ninth and Brown Streets, Philadelphia.

HELMBOLD'S FLUID EXTRACT BUCHU for weakness arising from indiscretion. The exhausted powers of Nature which are accompanied by so many alarming symptoms, among which will be found, Indisposition to Exertion, Loss of Memory, Wakefulness, Horror of Disease, or forebodings of Evil, in fact, Universal Lassitude, Prostration, and inability to enter into the enjoyments of society.

The Constitution once affected with Organic Weakness, requires the aid of Medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT BUCHU invariably does. If no treatment is submitted to, Consumption or Insanity ensues.

HELMBOLD'S FLUID EXTRACT BUCHU, in affections peculiar to Females, is unequaled by any other preparation, as in Chlorosis, or Retention, Painfulness, or Suppression of Customary Evacuations, Ulcerated or Schirrus State of the Uterus, and all complaints incident to the sex, whether arising from habits of dissipation, imprudence in, or the decline or change of life.

HELMBOLD'S FLUID EXTRACT BUCHU AND IMPROVED ROSE WASH will radically exterminate from the system diseases arising from habits of dissipation, at little expense, little or no change in diet, no inconvenience or exposure; completely superseding those unpleasant and dangerous remedies, Copaiba and Mercury, in all these diseases.

USE HELMBOLD'S FLUID EXTRACT BUCHU in all diseases of these organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing. It is pleasant in taste and odor, "immediate" in action, and more strengthening than any of the preparations of Bark or Iron.

Those suffering from broken down or delicate constitutions, procure the remedy at once.

The reader must be aware that, however slight may be the attack of the above diseases, it is certain to affect the bodily health and mental powers.

All the above diseases require the aid of a Diuretic. HELMBOLD'S EXTRACT BUCHU is the great Diuretic.

SPECIAL NOTICES.

Schenck's Pulmonic Syrup,

Seaweed Tonic and Mandrake Pills will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of Pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care,) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success. Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond Street, New York, every other Tuesday, and at No. 35 Hanover Street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half dozen. Mandrake Pills 25 cents a box. G. C. GOODWIN & CO., 38 Hanover St., Boston, Wholesale agents. For sale by all druggists.

NEW SABBATH SCHOOL BOOK, just published, "THE MORNING STARS," A Book of Religious Songs for Sunday Schools and the Home Circle. The authors believed that by recourse to the FOLK SONGS OF GERMANY,—a rich mine of sweet and simple melodies hitherto but little worked,—music at once very easy, very attractive, beautiful and of high order, might be placed in the hands of children; and from a careful examination of about four thousand of these GERMAN FOLK SONGS, the present collection has been culled.—Great pains has been taken to get the music into proper keys, for children's usage. It is our experience that music for children is very generally written too high. A child's voice should seldom be carried above D; and as a rule, it cannot be maintained for a number of bars on C or D without fatiguing. Accordingly, we have so selected the keys that only a very few melodies, in which it was impossible to avoid it, will be found to run above D, in any part of them.

Price in Boards, 35 cts.; Paper, 30 cts. Sent post paid on receipt of price.

Your Super-phosphate is entitled to the confidence of the agricultural community.
S. DANA HAYES, *State Assayer of Mass.*

FROM JUDGE PIERREPONT.

103 FIFTH AVENUE, N. Y., Nov. 24, 1868.

WM. L. BRADLEY. Dear Sir:—You ask how the Super-phosphate which I had of you last spring proved in its use upon my country place upon the Hudson River.

I say in reply that my gardener used it on the lawn, on the piece of meadow and on the Indian corn.

Its effect was rapid and wonderful. It is far the cheapest manure of which I have any knowledge.

Yours truly,
EDWARDS PIERREPONT.

FROM HON. GEORGE B. LORING.

I have used every variety and have found none which operated more effectually and permanently than yours.

FROM COL. LANG, OWNER OF THE CELEBRATED STALLION GEN. KNOX.

NORTH VASSALBORO', Me., Dec. 8, 1868.

W. L. BRADLEY. Dear Sir:—When I met you in Portland, I was unable to answer in full your queries as to the satisfaction found in the use of your Superphosphate, as my crops were not harvested.

I am gratified with the result of its application upon corn, potatoes and roots, and have arranged for a liberal supply for the coming season.

I am, respectfully yours,
T. S. LANG.

FROM REV. HENRY WARD BEECHER.

A second season's trial confirms the good opinion which I formed of it both for farm and garden crops.

STATE REFORM SCHOOL OF CONNECTICUT.

WEST MERIDEN, CONN., Dec. 12, 1868.

WM. L. BRADLEY. Dear Sir:—We much prefer your super phosphate on the various crops we raise on our farm to any now in market.

I am happy to recommend yours as a superior article to all who use fertilizers.

We shall order an increased amount for next year's use.
Yours truly,
F. W. HATCH, Supt.

WILLIMANTIC, CONN., Nov. 17, 1868.

WM. L. BRADLEY. Dear Sir:—I have used your Super Phosphate the past two years, with other fertilizers in the same field, to test the quality of each, and do not hesitate to pronounce yours the best.—My business leads me to examine the crops on a large number of farms besides my own, and I find as a general rule that where Phosphate is used, it increases the corn and potato crop from one-third to one half.

I am fully convinced that no farmer can afford to plant without it. Yours truly,
ROBERT BROWN, Real Estate Agent.

☞ Orders for the above, left at the Office of the *DAILY NEWS* and *NEWPORT JOURNAL*, will be promptly attended to.

"This world is a very good world to spend in,—
This world is a very good world to lend in;
But to beg, or to borrow, or get a man's own,
'Tis the very worst world that ever was known."

The above quoted rhyme is of ancient date, but unfortunately holds true in this year of grace—1869.

The subscriber has on his Books unpaid at this date a large number of accounts which by all principles of morality and integrity should have been paid by the 15th of January.

He now makes the following proposals:

1st.—Call and pay your just debts.

2d. If you cannot do it, call and say so, fixing some probable time of payment.

3d.—If you are sober and industrious and the world has gone hard with you, call and get a receipt in full without payment. Failing to do either of the above, do not insult the dignity of our common humanity, by dodging up alleys and corners on meeting him in the street.

Interest at 3 per cent. per annum will be charged on and after March 1st, from January 1st, 1869.

FRANKLIN MUTUAL FIRE INSURANCE CO.

NO. 3 MARKET SQUARE, Prov., R. I.

INSURES FIRST-CLASS DWELLINGS AND CONTENTS ONLY.

AMOUNT AT RISK, $4,500,000.

The object of a Mutual Company is to furnish Insurance to its policy holders at the actual cost, and the main thing to be considered is, what conditions are most favorable to make the actual cost as near nominal as possible. This Company will insure nothing but Dwellings and Household Furniture, which experience has shown to be the SAFEST OF ALL INSURANCE RISKS, thus putting the liability of losses at the LOWEST POSSIBLE STANDARD. The premium charged is sufficient to cover all probable losses and expenses during the term for which the policies are issued, thus avoiding the necessity of assessments, which are always *distasteful and expensive*. The insured receive all the profits,—every dollar, after deducting the necessary expenses, being invested for their benefit, and returned to them at the expiration of their policies, thus affording one of the safest and cheapest systems of Insurance.

$500 WILL BE FORFEITED BY DR. L. DIX if failing to cure in less time than any other physician, more effectually and permanently, with less restraint from occupation or fear of exposure to all weather, with safe and pleasant medicines.

SELF-ABUSE AND SOLITARY HABITS,
Their effects and consequences;
SPECIAL AILMENTS AND SITUATIONS
Incident to Married and Single Ladies
SECRET AND DELICATE DISORDERS;

Mercurial Affections, Eruptions and all Diseases of the Skin; Ulcers of the Nose, Throat and Body; Pimples on the Face; Swellings of the Joints; Nervousness; Constitutional and other Weaknesses in Youth, and the more advanced, at all ages, of

BOTH SEXES, SINGLE OR MARRIED.
DR. L. DIX'S
PRIVATE MEDICAL OFFICE,
No. 21 Endicott Street, Boston, Mass.,

is so arranged that patients never see or hear each other. Recollect the only entrance to his Office is **No. 21**, having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.

DR. DIX

boldly asserts (and it cannot be contradicted, except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he

is the only regular graduate physician advertising in Boston.

SIXTEEN YEARS

engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to

Strangers and Travelers.

To avoid and escape Imposition of Foreign and Native Quacks, more numerous in Boston than other large cities.

DR. L. DIX

proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!

be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of

FOREIGN AND NATIVE QUACKS,

who know little of the nature and character of Special Diseases, and less as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown: not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS,

through false certificates and references, and recommendations of their medicines BY THE DEAD, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon MERCURY, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, alas! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years, until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.

DR. L. DIX'S

charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

Medicines sent by Mail and Express to all parts of the United States.

TO THE LADIES.—The celebrated DR. L. DIX particularly invites all ladies who need a Medical or Surgical adviser, to call at his Rooms, No. 21 Endicott Street, Boston, Mass., which they will find arranged for their special accommodation.

Dr. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all (both in this country and in Europe) that he excels all other known practitioners in the safe, speedy and effectual treatment of all female complaints.

His medicines are prepared with the express purpose of removing all diseases, such as debility, weakness, unnatural suppressions, enlargements of the womb, also all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are respectfully invited to call at

No. 21 Endicott Street, Boston.

All letters requiring advice must contain one dollar to insure an answer. — au5—3law—1year

1000 MILES

OF THE

Union Pacific

RAILROAD

ARE NOW COMPLETED.

As 600 miles of the western portion of the line, beginning at Sacramento, are also done, but

267 MILES REMAIN

To be Finished, to Open the Grand Through Line to the Pacific. This Opening will certainly take place early this season.

Besides a donation from the Government of 12,800 acres of land per mile, the Company is entitled to a subsidy in U. S. Bonds on its line as completed and accepted, at the average rate of about $28,000 per mile, according to the difficulties encountered, for which the Government takes a second lien as security. Whether subsidies are given to any other companies or not, the Government will comply with all its contracts with the Union Pacific Railroad Company. Nearly the whole amount of bonds to which the Company will be entitled have already been delivered.

FIRST MORTGAGE BONDS AT PAR.

By its charter, the Company is permitted to issue its own FIRST MORTGAGE BONDS to the same amount as the Government Bonds, *and no more.*—These Bonds are a First Mortgage upon the entire road and all its equipments.

THEY HAVE THIRTY YEARS TO RUN, AT SIX PER CENT., and both

PRINCIPAL AND INTEREST

ARE

PAYABLE IN GOLD.

Such securities are generally valuable in proportion to the length of time they have to run. The longest six per cent. gold interest bonds of the U. S. (the '81's) will be due in 12 years, and they are worth 112. If they had 30 years to run, they would stand at not less than 125. A perfectly safe First Mortgage Bond like the Union Pacific should approach this rate. The demand for European investment is already considerable, and on the completion of the work will doubtless carry the price to a large premium.

SECURITY OF THE BONDS.

It needs no argument to show that a First Mortgage of $26,500 per mile upon what for a long time must be the only railroad connecting the Atlantic and Pacific States is PERFECTLY SECURE. The entire amount of the mortgage will be about $55,000,000, and the interest $1,850,000 per annum in gold. The present currency cost of this interest is less than $2,500,000 per annum, while the gross earnings for the year 1868, FROM WAY BUSINESS only, on AN AVERAGE OF LESS THAN 700 MILES OF ROAD IN OPERATION, WERE MORE THAN

FIVE MILLION DOLLARS,

The details of which are as follows:

From Passengers		$1,024,035.97
" Freight		2,040,928.19
" Express		51,423.05
" Mails		136,235.33
" Miscellaneous		91,626.97
" Government troops		104,077.17
" " freight		449,440.33
" Contractors' men		231,179.09
" " material		566,430.32
Total		$5,666,551.61

This large amount is only an indication of the immense traffic that must go over the through line in a few months, when the great tide of Pacific coast travel and trade will begin. It is estimated that this business must make the earnings of the road from FIFTEEN TO TWENTY MILLIONS A YEAR.

As the supply of these Bonds will soon cease, parties who desire to invest in them will find it for their interest to do so at once. The price for the present is par and accrued interest from Jan. 1, in currency.

Subscriptions will be received in Newport by HENRY BULL & CO: NATIONAL EXCHANGE BANK, Newport; NEWPORT NATIONAL BANK; and in New York

At the Company's Office, No. 20 Nassau Street,

AND BY

John J. Cisco & Son, Bankers, No. 59 Wall Street,

And by the Company's advertised agents throughout the United States.

Bonds sent free, but parties subscribing through local agents, will look to them for their safe delivery.

A NEW PAMPHLET AND MAP WAS ISSUED Oct. 1st, containing a report of the progress of the work to that date, and a more complete statement in relation to the value of the bonds than can be given in an advertisement, which will be sent free on application at the Company's Offices or to any of the advertised agents.

No. 78 State St., opp. Kilby St., Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of Inventions.

During eight months the subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided *in his favor* by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse.

CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

HORACE WATERS.

TESTIMONIALS.

The Waters' Pianos are known as among the very best.—*N. Y. Evangelist.*

We can speak of the merits of the Waters' Pianos from personal knowledge as being of the very best quality.—*Christian Intelligencer.*

The Waters' Pianos are built of the best and most thoroughly seasoned material.—*Advocate and Journal.*

Our friends will find at Mr. Waters' store the very best assortment of Pianos, Melodeons and Organs to be found in the United States.—*Graham's Magazine.*

MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet Music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming advertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for years), of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and *first-class instrument.* Stronger endorsement we could not give.—*Home Journal.*

The Medicine for

WHOOPING COUGH!

DODD'S NERVINE AND INVIGORATOR gives agreeable and almost instant relief in the spasms of Whooping Cough. This is a complaint that all children are expected to have; and when it comes, strange to say, they are left to fight it through as they best can, little or nothing being done to break its intensity or help the sufferers along. And when it is reflected that very many of the diseases of older and adult years have their origin in the tear and strain of Whooping Cough, this neglect would be utterly unaccountable but for the fact that children's diseases, like many of the weaknesses of women, are considered so much a matter of course that people have become stoically unconcerned about them. Let them cough it through, as we did, seems generally to be the unfeeling word. Whooping Cough is a Nervine disease, and Dodd's Nervine and Invigorator treats it with COMPLETE SUCCESS. Mothers, TRY IT, and save your little ones the worst agony of this distressing affection. A sure and beneficent medicine.

Important Certificate.

Speedy Cure for Whooping Cough.

J. W. PECKETT, Esq., Brooklyn, N. Y.

I am not in the habit of taking advertised medicines, nor of certifying to their curative effects when they come under my observation; but I feel constrained to make an exception in favor of DODD'S NERVINE AND INVIGORATOR, a medicine I have used in my family for some time past. My little daughter had been suffering from severe Whooping Cough for several weeks, and was so much broken of rest at night that—by excessive coughing and loss of sleep—her constitution and general health seemed to be giving away. Various remedies or palliatives were recommended by intimate neighbors, but nothing was tried until our attention was called by a physician not now in practice to Dodd's Nervine. This we procured and commenced using at once—with an effect immediate and surprising. As the convulsions were hardest at night, we began by giving the Nervine on her going to bed. The first dose administered made its impression; the cough became less frequent, and very much less severe—she soon got her accustomed sleep—rapidly revived in health and vigor—and in a few days was as well as ever. What was left of the Whooping Cough was thereafter of no trouble. Of course I cannot but consider Dodd's Nervine and Invigorator an invaluable remedy for this distressing malady. I may add, that I have since recommended it to several family friends, in like circumstances, and have found it in every case to be equally successful. It needs only to be known to come into universal demand.

COLGATE & CO'S

TOILET SOAPS.

I want to rouse each sleepy head,
Who stand upon the brink,
Where yawning gulfs disclose the dead,
Who might, but did not, think.

I want to warn the living ones
Who blindly grope along,
Ye fathers, daughters, mothers, sons,
What perils round you throng!

Look out, my reader, are you free,
Or do you wear the mark?
Most all are blind and cannot see,
Yes, groping in the dark.

Catarrh, a demon in the head,
Consumption is its son;
Kills hosts, yes, countless millions, dead,
Perhaps you may be one.

That hacking, hawking, spitting, shows,
Catarrh affects your head,
Matter and slime in throat or nose,
Runs down your throat instead.

Your lungs and liver soon will show,
Consumption has its birth;
Catarrh, its sire, will feed it too,
Till you return to earth.

If colds affect your head and throat,
Annihilator buy;
Now don't forget what I have wrote,
Or think this subject dry.

WOLCOTT'S ANNIHILATOR cures
Catarrh—the demon flies;
It saves the *lungs*, good health insures,
And Catarrh quickly dies.

I want to gratify my friends,
Who wish to understand
About PAIN PAINT, its use, its ends,
And why its great demand.

I want to show you, plain as day,
Why PAIN PAINT stops all pain,
That you may never have to say
"I'll not try paint again."

PAIN PAINT will cool but never stain;
Pumps inflammation out;
'Tis harmless on the breast or brain,
A trial stops all doubt.

When inflammation leaves the frame,
All pain will cease at once;
Remove the cause, 'tis all the same:
None doubts unless a dunce.

The pores will ope and drink PAIN PAINT;
Absorbents fill with ease;
Restores the weak, the sick, the faint,
The greatest skeptic please.

Evaporation cools the place
As inflammation flies;
Hot blood at the absorbent's base
Makes PAINT in vapor rise.

'Tis thus PAIN PAINT removes all doubt,
Removes the very cause
By pumping inflammation out;
On this we rest our cause.

COE'S COUGH BALSAM

This long tried and popular Remedy is again called to the attention of the public. As often as the year rolls around, the proprietors annually remind the people, and remind them that among the many things required for the health, comfort and pleasure of the family through the long and tedious months of winter, Coe's Cough Balsam should not be forgotten. For years it has been a standard medicine—and mothers anxious for the safety of their children, and all who suffer from any disease of the throat, chest and lungs, cannot afford to be without it. In addition to the ordinary four ounce so long in the market, we now furnish our mammoth family size bottles, which will, in common with the other size, be found at all Drug Stores.

FOR CROUP.

The Balsam will be found invaluable, and may always be relied upon in the most extreme cases.

WHOOPING COUGH.

The testimony of all who have used it for this terrible disease during the last ten years, is, that it invariably relieves and cures it.

SORE THROAT.

Keep your throat wet with the Balsam—taking little and often—and you will very soon find relief.

HARD COLDS AND COUGHS

Yield at once to a steady use of this great remedy.—It will succeed in giving relief where all other remedies have failed.

Soreness of the Throat, Chest and Lungs.

Do not delay procuring and immediately taking Coe's Cough Balsam, when troubled with any of the above named difficulties. They are all premonitory symptoms of Consumption, and if not arrested, will sooner or later sweep you away into the valley of shadows from which none can ever return.

IN CONSUMPTION,

Many a care-worn sufferer has found relief and to-day rejoices that her life has been made easy and prolonged by the use of Coe's Cough Balsam.

IN SHORT,

The people know the article, and it needs no comment from us. It is for sale by every Druggist and Dealer in Medicines in the United States.
